

Happy holiday greetings to all!

First off, we've moved! After 13 years in Watauga, we finally moved a few miles up the road. We're now in Southlake, which is about 15 miles north of our old location. We've got a beautiful piece of property on the edge of some Corps of Engineers forest preserve. Our new contact info is:

John, Shelly, and Maggie Hattan
3333 Southlake Park Road
Southlake, TX 76092

(817) 329-1441
(817) 251-1600 (fax)

We spent almost a year looking at houses before settling on this one. We were able to convert the entire second floor to offices, as we'd long outgrown the converted garage we had at the other property.

Miss Maggie is now 2 $\frac{3}{4}$ years old, and she's settled in just fine. She's got her own private playroom now, which she absolutely loves. From the afternoon until bedtime, she practically lives in her playroom. She's learning what all her letters sound like and is keenly interested in anything involving reading. She's excited about the possibility of Santa Claus bringing a bicycle. I guess we'll just have to see.

CivilGrrl Engineering is still keeping very busy. We're also doing subdivisions and some municipal work for cities, but we're always looking for something new. We're now up to 2 $\frac{1}{2}$ employees, as we've got a person coming in to do filing on Tuesdays and Thursdays.

Hope this letter finds you well, and we all wish you a great 2005!

John, Shelly, & Maggie
